Some of Mr. Harrison's friends are saying to-night that at least the Democrats of the House will resent the treatment accorded him at the White House. Representative Goldfogle said to-night that the President had received the delegation most cordially and had assured them of his interest in the movement which had brought them to Washington. The Jewish delegation was here to urge White House executive offices the House Committee on Foreign Relations to report favorably a resolution introduced by Representative Harrison condemning the persecution of the Jews Russia and asking the President to use his friendly offices to prevent a recurrence of the recent massacres

> Congressman Goldfogle missed Mr. Harrison as soon as the delegation had een ushered into the President's office. Mr. Goldfogle and the delegation waited a few minutes for the New York Representative, but when the President stepped out from his desk and indicated that he was ready to receive them Mr. Goldfogle postponed the introduction no longer. Nothing was said about Harrison at the interview because Mr. Goldfogle was watching the door and expected to see him come in at any moment. When he hadn't shown up at ail, however, Mr. Goldfogle assured the members of the later. delegation that Mr. Harrison probably had dropped into one of the White House private offices to issue a statement for the press in regard to the meeting with the President. When Mr. Goldfogle started a hunt through the executive offices for his colleage he was told that Mr. Harrison had left word that he had eceived an urgent call from the Capitol. It was nearly two hours later when the Mr. Goldfogle learned the real reason

for his colleague's absence. Representative Keliher, who is a Demo rat, said to-night that if he and Rep esentative Goldfogle had known that the President would not receive Representative Harrison they would not have called on him.

WOMEN STRIKE LEADERS.

I'we of Them at Head of 1,500 Men and YONEERS, June 9.- A singular situation

whose appeals at the daily meetings of the strikers have kept a large number of them from returning to work and have spurred others to join the strike. The other woman leader is Miss Ethel Ba through whose efforts 100 women employees of the company were persuaded to go on strike to-day in sympathy with

the men.
Since the beginning of the strike on Monday the young women operatives had been undetermined whether to quit work. Yesterday after a vain appeal to her companions Miss Bauman said she would join the strikers if she was the only girl in the factory to do so. For that reason the Court will not accept the request to discharge the Grand Jury this morning and will continue it in existence for two weeks longer. In the meantime the Court deems that the work which Wants to Be a Humble Legislater. The Court must insist upon knowing something of the character of the document which you desire to submit because it is not every presentment which is acceptable, and after all the work which you have done it would be an unfortunate thing indeed if you were to submit some thing to the Court which would be out of line with a properly acceptable document. For that reason the Court itself desires to knew more about it and during the two weeks in which your existence is continued the Court will devote some of its attention to learning the character of the document which you are desirous

DISTRICT ATTORNEY DISSENTS. District Attorney Whitman appeared

to dissent. "If your Honor please," he said, "of ourse without questioning your Honor's decision in this matter. I want to say that I myself have not seen this presentment As I understand it, and I think the Court will agree with me, I have no right to see it before it is filed unless the Grand Jury instruct me or ask me to see it. It can be amended or expunged from the record prescribed by law. My suggestion would
